Foreword	iii	3.3 The Dangers of Small Populations	7
Prof. Vo Quy		3.4 Possible Methods for Accelerated Captive Breeding	7
Editors' Note and Acknowledgements	iv	3.5 Conclusions of the International Kouprey Workshop	9
J.R. MacKinnon & S.N. Stuart			
Section 1. Introduction	1	Section 4. The Action Plan	10
 		4.1 Programme Goals	10
Section 2. Portrait of an Endangered Species	1	4.2 Programme Design	10
2.1 The Grey Ox of Indochina	1	4.3 A Study on the Kouprey's Conservation Requirements	11
2.2 Distribution	1	4.4 The Selection and Establishment of Protected Areas	11
2.3 Habitat	2	4.5 Gazettement of Reserves	12
2.4 Diet	2	4.6 Training Requirements for Protected Area Management	12
2.5 Herd Composition	2	4.7 Production of Management Plans	12
2.6 Breeding Season	3	4.8 Fire Management	13
2.7 General Behaviour	3	4.9 Implementation of a Captive Propagation Programme	13
2.8 Seasonal Movements	3	4.10 Veterinary Precautions during Kouprey Capture and Translocation	14
2.9 Response to Humans	3	4.11 Veterinary Implications Post-capture	15
2.10 Pre-War Status	3	4.12 Housing and Handling of Captive Kouprey	15
2.11 Current Status	3	4.13 Design of Holding Compounds	16
2.12 Conservation Measures Taken	4	4.14 Training Requirements for Wildlife Management ..	17
2.13 Existing Protected Area System	4	4.15 Education Requirements	17
2.14 Security over the Kouprey Range	4	4.16 Need for Overseas Experts	17
2.15 Current Constraints	4	4.17 Equipment Needs	17
2.16 New Initiatives	5	4.18 Coordination of the Programme	17
		4.19 Budgetary Needs	18
Section 3. An Appraisal of Kouprey Conservation Options	5	References	19
3.1 What is Needed to Save the Kouprey in the Wild? ..	5		
3.2 <i>In Situ</i> or <i>Ex Situ</i> Conservation?	6
